

Three professional sets.
Everything at hand. Simply faster.
Bosch: Focusing on versatility

NEW! Accessory sets for virtually every application.
Screwdriving and drilling in metal, concrete and wood.

BOSCH
Invented for life

Complete. Versatile. Compact. Our three new professional sets are the most complete sets for the most common screwdriving and drilling applications.

Professional accessories always at hand: Each 35-piece set contains six of the most common metal, concrete or wood drill bits, plus three nutsetters, two double-ended bits, two bit holders and 22 screwdriver bits - all in a handy and robust box that fits in your pocket. This saves valuable time in the work place and completes jobs faster.

The sets are clearly arranged and the screwdriver bits are colour-coded by bit type. This enables quick selection of the suitable accessory for each job. All drill bits match the application required. E.g. concrete drill bits have a robust carbide tip with two cutting edges and a U-shaped 2-flute for good dust removal, metal drill bits come with split-point tip for easy centering and the brad-point wood drill bits have a 2-flute design for drilling clean holes.

Our professional sets:

- ▶ All common drill bits, bit holders, nutsetters and screwdriver bits
- ▶ The most complete and versatile sets in the market
- ▶ Clearly arranged and colour-coded
- ▶ Drill bits are especially tailored for use in respective material

Set	PRO-Mix Metal 2 607 017 328	PRO-Mix Wood 2 607 017 327	PRO-Mix Concrete 2 607 017 326
