BOSCH
Invented for life

GLL 3-50 Professional:

For all levelling and transfer applications

Wide range of applications for drywallers due to complete solution consisting of multi line laser and mini tripod

Easy to adjust mini tripod making it simpler to set out plumb points

Fast levelling time and good line visibility

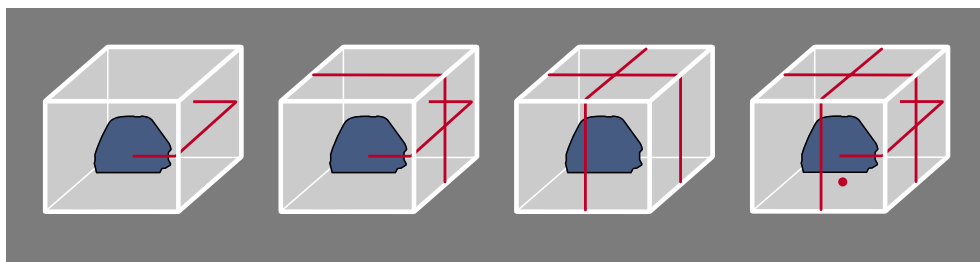

The BM 1 Professional wall mount illustrated is available in the set version 0 601 063 803 as well as a stand alone under 0 601 015 A00.

Operating principle

- ▶ Horizontal levelling
- ▶ Horizontal and vertical levelling
- ▶ Plumb alignment
- ▶ Multifunctional

Application examples

- ▶ Suspended ceiling installation
- ▶ Tiling
- ▶ Room partitioning
- ▶ Drywall installation

GLL 3-50 Professional line laser

Part number	0 601 063 800
Working range	Up to 10 m*
Working range with receiver	Up to 50 m*
Accuracy of lines	± 0.3 mm/m
Accuracy of plumb point	± 0.5 mm/m
Self-levelling range	± 4°
Levelling time	4 s
Laser diode/class	635 nm/<1 mW/2
Operating time	7 h in 3-line mode
Protection class	IP54
Scope of delivery	4 x 1.5 V LR6 (AA) batteries Laser target, mini tripod L-BOXX inlay, protective case

* Depending on ambient brightness.
