Dust-free sanding with the Bosch Multi-hole Pad

The new Bosch Multi-hole Pad ensures state of the art dust extraction

Pad compatibility

Unique! One pad that is compatible to all common brands such as Bosch, Festool, Makita, DeWalt, Mirka, 3M, Dynabrade and Rupes

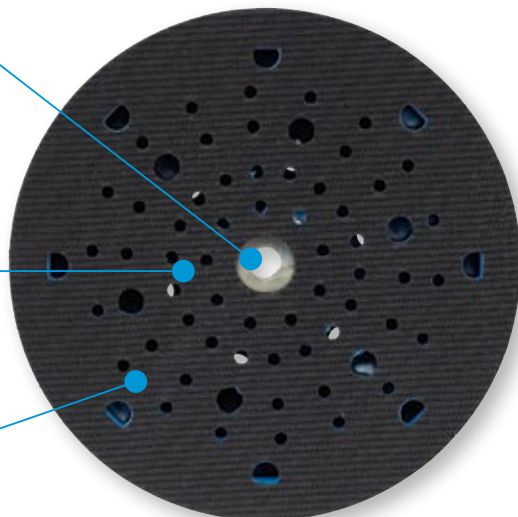

All for one: Hole pattern usability

Suitable for use with all hole pattern discs and velcro types

Dust extraction

Significantly better dust extraction than current standard 6-/8-hole Bosch pads

Bosch Multi-hole Pad product profile

Soft

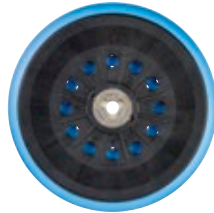

For fine sanding and finishing to prepare for intermediate or final lacquering with high surface quality, for distinct curves and arches

Medium

For intermediate sanding to prepare a lacquering surface and for universal use, for flat and curved surfaces

Hard

For coarse sanding such as sanding down paint, filler, plaster and untreated natural wood, for flat surfaces and narrow edges, high edge strength

Bosch Multi-hole Pad product range

Available in different diameters

GEX 150 AC
GEX 150 Turbo
GEX 125-150 AVE

5/16": 3M, Mirka,
Dynabrade, Rupes

5/16": 3M, Mirka,
Dynabrade, Rupes
M8: Festool, Makita,
DeWalt
